

As Captain of the Badminton Team, it is with great pleasure that I present the Annual Report for the year 2021.

We initially started off this year by commencing fitness for the Under-19 Team in March while complying to COVID-19 guidelines once school re-opened. Even though we highly anticipated participating in tournaments this year, as the situation of the country aggravated further, many tournaments were cancelled due to the ongoing pandemic. Therefore, online training sessions commenced in May and all players continued training weekly with a goal set in mind.

I would like to extend my sincere gratitude to the coaches and the teachers-in-charge for their unwavering support and guidance in enhancing Badminton.

Finally, I would like to thank my Vice Captain for her constant assistance and to all Badminton players for their support and dedication. I wish all players the very best in taking our school to greater heights in Badminton.
