

## **REACH 2023**

"Reach'23" is a community service project organized jointly by the Library Society and Social Service Club that aims to create the perfect reading nook for a school in a serene rural area. The goal is to enhance the educational resources of children: to expand their learning experience and promote a love for reading among students with limited access to books. Through collaborative efforts, we aspire to create a welcoming space that fosters learning, curiosity, and academic growth. The project will include a series of games and an entertaining presentation to have a fun day with them. We hope to make a lasting impact on the education of these students and contribute to the development of a vibrant learning environment in our community.
