

Hope Brigade '23

Hope Brigade '23 is an ongoing project of the Social Service Club of Bishop's College to restore our island. Under this project, we have begun collecting old books with a considerable amount of pages in usable condition. We plan on compiling them into new books by conducting a workshop for our club members in collaboration with the "We're Sri Lankan" foundation, which comprises of Sri Lankans with a passion for seeing our island nation revived and restored. Upon completion of this workshop, we hope to donate the newly compiled books to the children of the maintenance staff, as a segment in our maintenance staff project, "Alokaya '23".

Upcoming Projects

Alokaya '23

Alokaya '23 is a project done by the Social Service Club to appreciate the services of the maintenance staff, in collaboration with the Humanity First Society, United Nations Club, The Interact and The Staff Guild. Under this project, we will be organizing a fun-filled day for the members of the maintenance staff and their families. In addition, the members of the maintenance staff will be gifted with personalized water bottles and lunch boxes along with a stationary kit and a food hamper for their families.

Reach '24

Reach '24 is a library restoration project done by the Social Service Club in collaboration with the Library Society. For this project, the students of Bishop's College will be donating story books that will be donated to an underprivileged school. As part of this project, a fun day will be organized for the students of the same school.
