

Humanity First Society

Report on Social Service Project – 2024

Project: Uplift '24

Date Conducted: 9th August 2024

Venue: Charlie's Home by Save a Paw

In 2024, the Humanity First Society of Bishop's College carried out a single social service project titled *Uplift '24*. This initiative focused on supporting **Charlie's Home by Save a Paw**, an animal shelter dedicated to rescuing and caring for abandoned animals.

A total of **23 members** from the society, along with our staff advisor, visited the shelter to donate essential supplies such as food, shampoo, milk boxes, and medical items. These donations were collected through contributions from Bishopians and supplemented by club funds when needed.

The visit was not only an opportunity to provide assistance to the shelter but also a valuable experience for our members. It deepened their understanding of compassion, responsibility, and the importance of humanitarian service.

Although this was the **only social service project carried out in 2024 and up to now**, *Uplift '24* truly reflected the mission of our society – *to live, serve, and inspire*. We look forward to engaging in more impactful projects in the future.
